BYOW (Custom – Bring Your Own Wheels) Option – Instead of ordering wheels from Raz for your Züm, you can use your wheelchair wheels if using 1/2" dia. quick release (QR) axles. Specify wheel diameter and the distance between the inner bearing and the locking balls (grip length) See drawing below.

Wheel Diameter: _____" (Overall diameter, including tires)

QR Axle Grip Length: _____"

When a custom receiver is required, Raz will undersize the length by 1/8" in order to ensure full engagement of the axle. This will result in some lateral "slop" in the wheel, but will ensure that the locking balls that retain the axle in the receiver are fully extended. (see drawing)

If you need help with measuring this, please call Raz Customer Service directly.
